

Don't Blame It On Me

(Michael Fitz)

Well there's no point in discussing this baby
Cause we've been through it one
Hundred times in the past
Let it stay past

I was there when you needed me baby
And I'll be there when the
Skies come tumbling down
Let 'em tumble on down

Blame it on the God's volition
Blame it on the mass condition
Blame it on the woman that you can't be
I'll be damn if I'll just stand here
And watch you through our love away
I'll be damn if you'll go running free
While you blame it on me

C'est que le premier pas qui coute baby
It's just the first step that
Hurts when you walk away
When you're walkin' away

Blame it on the God's volition
Blame it on the mass condition
Blame it on the woman that you can't be
I'll be damn if I'll just stand here
And watch you through our love away
I'll be damn if you'll go running free
While you blame it on me

Over the mountains and under the valleys
It's all the same in my life
More than anything in this world darling
I want to hold you and
Love you hard in the night

Blame it on the God's volition
Blame it on the mass condition
Blame it on the woman that you can't be
I'll be damn if I'll just stand here
And watch you through our love away
I'll be damn if you'll go running free
While you blame it on me
